

EVO Power Blade™ Hot Swap

Non-stop runtime. Unmatched flexibility.
LiFePO₄ safety. Lasting value.

Proven dual-battery system. 476 Wh total capacity for 24 x 7 mobile power with minimal swapping per shift.

Now available with on-cart charging. Choose 100% cordless or hybrid hot-swap - support all nurses' charging preferences and clinical workflow requirements.

Safe LiFePO₄ battery chemistry. EVO hot-swap batteries are not vulnerable to thermal runaway, which leads to overheating and fires in other lithium battery types.

Industry-fastest charging. Charge batteries to > 90% capacity in < 2 hours with the Power Blade charger.

2-3x longer battery life. EVO Power Blade batteries are rated and warranted for 4,000 recharge cycles.

Available with Jaco Care. Combines graphical on-cart status module and comprehensive asset management software.

Details on page 4

EVO LiFePO₄ Hot Swap

More power to choose

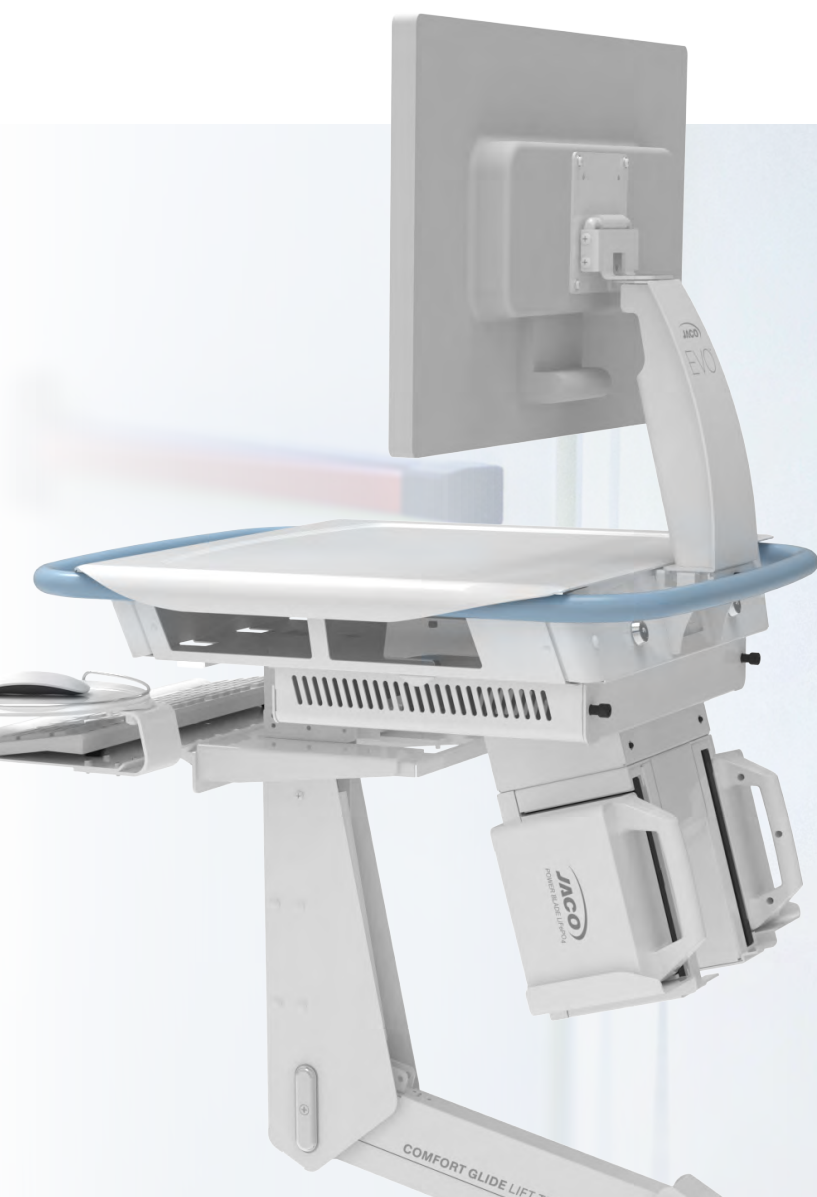

EVO Power Blade Cordless

- Dual-battery cordless hot-swap for 100% off-cart charging and true 24 x 7 unplugged mobility
- Batteries discharge one at a time to enable a 3-5 hour 'swap window'
- Enables round-the-clock runtime with fewer swaps and fewer spare batteries
- Developed specifically for demanding clinical workflows with zero tolerance for downtime

EVO Power Blade Corded

- Combines off-cart and on-cart charging for maximum flexibility
- Swap in batteries from Power Blade charger, or charge batteries on the cart using any available outlet*
- Easily deploy/redeploy carts to hospital units without or without wall chargers
- Support virtually any clinical workflow or any nurses' working preference

**On-cart charge time 4 hours to >90% battery capacity. Discharge sequence varies. Ask your Jaco representative for details.*

EVO Power Blade™ Charger

- Adapts for tabletop or wall-mount installation
- Charges 2 Power Blade batteries to > 90% capacity in < 2 hours
- Instantly warns nurses when batteries drop below recommended capacity
- Projects just 4" from wall - meets most local fire codes for in-room and hallway mounting

EVO LiFePO₄ Hot Swap

Available exclusively for EVO - the industry's premier EHR cart.

The result of two years of development and countless prototypes, EVO is changing the way hospitals think about point-of-care equipment investment – and rewriting industry standards for nurse comfort, trouble-free ownership and proven sustainable value.

Easier and healthier for nurses. EVO helps prevent costly nurse injuries with up to 45% lighter weight, one-handed Comfort Glide height adjustment, and research-based ergonomic design.

Zero-maintenance. No scheduled maintenance required or recommended beyond routine cleaning and disinfection.

No service contract required. Fewer than 1 percent of all EVOs are purchased with a service contract (including 0% in 2021).

Industry-best 10-year warranty. That's 3 to 7 years longer than other EHR cart warranties. EVO can reduce cart replacement costs by 2/3 or more.

Compatible EVO cart models

PC Carts

Part Number	Description
EVO-20-HS-NB	EVO PC Cordless Hot Swap Cart, no batteries included
EVO-20-HS-ES-NB	EVO PC Cordless Hot Swap Cart, e-Lock storage ready, no batteries included
EVO-20-HS-C-NB	EVO PC Corded Hot Swap Cart, e-Lock storage ready, no batteries included
EVO-20-HS-JC-NB	EVO PC Cordless Hot Swap Cart with Jaco Care, e-Lock storage ready, no batteries included
EVO-20-HS-C-JC-NB	EVO PC Corded Hot Swap Cart with Jaco Care, e-Lock storage ready, no batteries included

Laptop Carts

Part Number	Description
EVO-10-HS-NB	EVO Laptop-Locking Cordless Hot Swap Cart, no batteries included
EVO-10-HS-ES-NB	EVO Laptop-Locking Cordless Hot Swap Cart, e-Lock storage ready, no batteries included
EVO-10-HS-C-NB	EVO Laptop-Locking Corded Hot Swap Cart, e-Lock storage ready, no batteries included
EVO-10-HS-JC-NB	EVO Laptop-Locking Cordless Hot Swap Cart with Jaco Care, e-Lock storage ready, no batteries included
EVO-10-HS-C-JC-NB	EVO Laptop Locking Corded Hot Swap Cart with Jaco Care, e-Lock storage ready, no batteries included

Batteries and Chargers

Part Number	Description
51-4218	EVO Power Blade Charger Tabletop Model
51-4687	EVO Power Blade LiFePO ₄ Hot Swap Battery 238 Wh Capacity
